'How We Can Help Manage Your Fire Risk'

Why do I Need a Fire Risk Assessment?

The Regulatory Reform (Fire) Safety Order; 2005 states that all **employers** '*must make a suitable and sufficient assessment of the risks to which relevant persons are exposed*'

So, any workplace or place in which the public are admitted must have a Fire Risk Assessment undertaken by a competent person.

Periodically your local Fire Authority may inspect your premises to check the adequacy of your fire safety arrangements and your Fire Risk Assessment

Unicorns team of expert Fire Risk Assessors can undertake the Fire Risk Assessment for you and provide an easily to understand report explaining any risk reduction measures necessary

Management, Advice & Consultancy Services

As well as Fire Risk Assessments *Unicorn* can provide general fire consultancy services

The increasing burden on business communities to self-regulate and manage their own Fire and Health & Safety needs creates real pressures which can be a distraction from your core purpose of 'running the business'

Unicorn fire & safety solutions understands this and offers its expertise to assist you to meet your legal obligations with the minimum of fuss and cost

Unicorns' has many years' of experience dealing with planning applications and building regulations. We may be able to help you with your application processes

- We can develop your properties Fire Safety Strategy's, policies and procedures
- We can help manage your fire safety arrangements and ensuring that your fire safety procedures and provisions are always suitable
- We can act as your *Fire Safety Officer* including liaising with the Fire Authority during their inspections
- As well as undertaking your Fire Risk Assessments, we can periodically review them for you
- *Unicorn* can negotiate on your behalf with local authority Fire Service or other enforcement agencies should you feel their demands are unreasonable
- We can provide *Expert Witnesses* to give testimony in the event of action being taken by the fire enforcement agencies

'Our Fire Extinguisher Services'

Does my workplace need fire extinguishers?

Under the Regulatory Reform (Fire) Safety Order 2005 all work places must be provided with a means for fighting fires

Unicorn can offer significant savings on fire extinguishers, safety signage and other fire safety equipment. Our extinguishers meet BSEN 3: Part 5, standards and come with a 5-year guarantee

But how do I know how many extinguishers I need?

Unicorn can do that for you.

We will undertake a survey of your premises to establish the number and type you need, and where they should be located

Our engineers will deliver and install them in compliance with the relevant Codes of Practice ensuring your complete peace of mind

What if I only need them for a short time?

If you are running an event and only need the extinguishers for a short period we offer a hire service

We will deliver them for a small fee or you can collect them yourself

How often do I need to have them serviced?

The Fire Safety Order states that fire extinguishers "*will require periodic inspection, maintenance and testing*". British Standard 5306 prescribes that this should be undertaken annually by a competent engineer

Unicorn Extinguisher Engineers are all IFEDA qualified and have a vast experience. Unlike many companies, our engineers are qualified to undertake extended servicing and can prolong the life of your equipment so that you get maximum value for money

Ethics & Code of Practice

Unicorn will never compromise on its business ethics.

We always put our customers first and are determined you will get -

The highest quality of service at a sensible price
